

# Spiritual Comprehensions Of 'Through-Experience'

*Plate 1: God & John 7, detail image, June, 2021.*

## Observations:

### The Practice of the Presence & 'Through-Shifting'

*The experiential processes of the practicing Intuitive Artist/Spiritual Aspirant, includes daily deconstruction of reflective-reference (see Glossary at [www.korabalesart.com](http://www.korabalesart.com)) through experience, within and upon the symbols found within the artistic endeavor and life. This is accomplished via the use of 'Through-Shifting' of oneself into the Observer-state, Within The Presence of your own experiential-perception.*

*Within the Observer-state, one allows the ego-self to be sublimated to the Higher Divine Experiential-Perception (Intuition). **This is a method for Practice, perceived as essential to comprehend the Multidimensional Meanings within the composition of this writing (and the art), as well as one's own 'Spiritual-Location-Within.'** Overall, this is an 'Inner-Spiritual-Position, that I call 'Spiritualization,' which is Beyond Self-Realization.*

*One may gauge the distance of his own perception to that which is Conceptually Higher than his current Spiritual-perceptive level, through his experience of reading texts such as this. The distance is Reflective, and may be perceived experientially as discomfort, grief, wrath, harshness, sarcasm, or even confusion. I mean, check your ego.*

*These limiting experiential-perceptions are a Teaching Mechanism through the Spirit (whether you're conscious or not of It), Reflectively-informing the consciousness of its position, in relation to the corrective measure needed for improvement (Awareness of the Presence). This is amenable, meaning adjustable in regard to*

*perceptual distance, as the limitation-conditions (just listed above) originate within 'Self-ideas'... which themselves are limitations, unwittingly worn by choice as bondage, to the 'circumscription by polarity' within the consciousness.*

*The Experience of such an Inward-Position - I mean of the Presence-Perceived within oneself - is a Spiritual 'Effect' reflected outwardly, which adjusts one's 'attitude' accordingly, simply truncating the limitation perception within oneself effectually.*

*What one is 'left-with', is the experience of the Voidless-Void that is the Spirit, and if one is paying Attention, he will Intuitively Conceive It. That is where these Spiritual Theorems were Realized - this Location Within. You may visit There, and check it out for yourself, within your own meditations, and through the Spirit of your own Perception.*

*Amen!*

## **Spiritual-Theorems from the Presence**

**Theorem 1:**

*The Form (Spirit-Perceived) of one's Focus, is the Function of the Form, within experience.*

**Theorem 2:**

*The 'Function of the Focus (Spirit)', 'Upon-and-Within the Form', is Unlimited.*

*There are more, but 'I' was stopped here Intuitively, as 'I' needed to experience more limitation-perspective, to fully grasp the following conclusions (this took me a few months of 'Through-Experience' within the Spirit).*

### Conclusions:

*I have come to these Intuitive-expressions, or 'Theorems', as a part of the Full-Circle-Within my own meditations, and Now-Realize 'Beyond Self' as one's True Location from meditating upon them.*

*Through "THAT-Experience," I have effectively been given the conscious information of 'This-Realization', which is Paradoxical in structure - meaning, the 'mind' and 'thought' are experientially-perceived as unnecessary for one's own creative-expressions within life (which is really important to know). They are also unnecessary for Living Life, because when one is positioned to view his experience through them, and not Through the Presence, he is guaranteeing his continued bondage to polarity-thinking. This means 'religion', teachers, saints, miracles, and masters, all become unnecessary, really, as they are not the Spirit's True Position, which is where one wants to Live within experience - Through The Infinity of His Presence.*

*Further, this does not mean one does not use his Reason, but that definition has changed within this New Position, to an honest hanging of ego-circumscription.*

*And Positioned There-Within that Beyond-Self,  
Unlimitation-Perspective,  
is the Presence.*

*That is His Position, through which, Now-Located, one is Freed,  
Beyond the Mind,  
Beyond Thought,*

*Beyond Self in Realization.*

*Arriving There, one Knows the Absolute Position of Love's  
Uncircumscription, which is the third Theorem of the Presence's  
Position:*

**Theorem 3:**

*The Focus (Perception of Spirit) Through the Form is Unlimited,  
Functioning as a Center-Beyond and Within Experiential-Perception  
(Intuition),  
and is a Consciousness-Point,  
of Unaffected Attention.*
